Açık Erişim (OA)

- Değişik bir çok modele verilen ortak bir ad
- Dergiye abone olmadan makalelerine erişim
- Sanal ortamda (internet üzerinden)
- Okuyucununun para ödemediği bir sistem

Açık Erişim (OA)

Altın Açık Erişim:

#Tamamıyla açık erişimli dergiler; yazar da okuyucu da para ödemez

#Yazar-tarafı paralı model; okuyucuya ücretsiz hibrid dergiler

#Aboneliğe bağlı dergilerde bazı makalelere ücretsiz erişim

Açık Erişim (OA)

Yeşil Açık Erişim:

#Abonelik sistemine bağlı olarak yazara da okuyucuya da açık erişim

#Yayımcı ticari kar güder

#Makale erişime açıktır ama bir bedel ödenir

Açık Erişim (OA)

Açık Erişimli Arşiv:

#Abonelik sistemine bağlı dergilerdir

#Belirli bir ambargo süresi sonrası (6ay-1yıl) makaleler ücretsiz erişime açılır

#Gecikmeli erişim

#Abone olan okuyucular abone olmayanları sübvansederler-destek verirler

Açık Erişim savunucuları

Jeffrey Beall

About the Author

Jeffrey Beall

I work as a librarian at Auraria Library, University of Colorado Denver, in Denver, Colorado.

An academic librarian for over 22 years, I have published extensively in the areas of metadata, full-text searching, and information retrieval.

My interest in scholarly open-access publishing began in 2009 when I reviewed the publisher [Bentham Open](#) in *The Charleston Advisor*, a journal that reviews electronic resources.

Previously, I served on the editorial board of *Cataloging & Classification Quarterly*, an experience that, in addition to my own research and writing, helped me learn a lot about scholarly communication. My service on this editorial board ended in December, 2012.

A full list of my publications is available on my [website](#). In 2012 I was awarded tenure and promoted to associate professor.

Dr. Umashankar Lakshmanadoss MD, is a faculty at Johns Hopkins University School of Medicine, Baltimore, USA. He is also serving as Director of Inpatient Consult Service, Johns Hopkins Bayview Medical center. He earned his medical degree from TN MGR medical university, India and completed his post graduation training in Internal Medicine at Madras medical College. He also got trained in Internal medicine at Unity Health System, affiliated to University of Rochester, USA. In addition to be an excellent clinician and teacher, his objective is to become a clinical researcher - to bridge the "vital gaps" in the delivery of the evidence-based care to the patients. His areas of interests include sudden cardiac death and therapeutic hypothermia, improving the evidence based management for heart failure and device based therapies for heart failure and its complications. He has presented in various prestigious conferences like American Heart Association and American College of Cardiology Conferences. Dr. Umashankar Lakshmanadoss has been honored as a reviewer for American Journal of Cardiology, Pacing and Clinical Electrophysiology, Cardiology research and practice, Journal of Hospital Medicine, Diabetes Technology and Therapeutics Journal, Webmed Central, The Open Epidemiology Journal and as an editor for the Annual house staff Academic Review, Unity Health System, University of Rochester, USA.

Dr. Waseem Khaliq M.D, M.P.H is faculty at Johns Hopkins University School of Medicine, Baltimore, He earned a medical degree at King Edward Medical University , Pakistan and Master's in Public Health (MPH), at University of Minnesota, Minneapolis. He completed his training in internal medicine at University of Illinois, Urbana. His research interest include cancer prevention and surveillance, genetic risk factors for breast and prostate cancer, evidence-based medicine ,epidemiology, and quality improvement in medical care. He is a member of Society of Hospital medicine

Dr. Venkat P Gundareddy, MD, is an Instructor Of Medicine, Collaborative Inpatient Management Services ,Johns Hopkins School of Medicine, Baltimore, USA. He earned his medical degree from NTR Health University ,India and completed his post graduate from, St Barnabas Hospital, Bronx, NY. He has developed his research area of Interest in Cost effectiveness of repeat lipase levels in the management of acute pancreatitis-A pilot study presented at QI fair 2009 at St Barnabas Hospital.

4 BİN KADAR DERGİ VAR

Denver'daki Colorado Üniversitesindeki araştırmacı kütüphaneci Jeffrey Beall, “yağmacı açık erişimli dergiler” adını verdiği bir kara liste oluşturmuş. 2010 yılında listesinde 20 yayımcı varken, günümüzde 300'den fazla yayımcı var. Tahminine göre bugün 4 bin kadar yağmacı dergi mevcut, bu sayı açık erişimli dergilerin yüzde 25'ini oluşturuyor. Bu dergilerin yaptığını “kolay para, az iş, başlangıç için düşük bir bariyer” olarak tanımlıyor.

Eğer uzun süredir kullandığınız bir e. posta adresiniz var ise mutlaka siz de spam (istenmeyen) e. postalarla karşılaşmışsınızdır. Bu e. postaların bir kısmı ürün reklamı yaparken, bir kısmı da sizi dolandırarak, paranızı almaya çalışır. Bunlardan en ünlüsünün, [Nijerya](#)'daki devrik prensden gelen e.posta olduğunu sanıyorum.

Artık çoğu kişi tarafından bilindiği için amacına ulaşamayan bu spam e.postaların yerini şimdi, dergilerine makale göndermemizi isteyen e.postalar aldı. Genellikle "**Call for papers**" gibi başlıkla gönderilen bu e.postaların içeriğinde dergi hakkında kısa bir bilgi yer alıp, bir sonraki sayı için ne zamana kadar makale gönderebileceğiniz vs. gibisinden bilgiler de yer

alır.

Bu gibi dergilerin internet sitesine girdiğinizde dikkatinizi çekecek başlıca unsur; makalenizin hızlı bir şekilde gözden geçirileceğine dair ver alan bir bilgi ve yayınlanması için gereken ücrettir. Bazı

Tavsiyem yurt dışındaki dergilere yayın göndermeden önce Jeffrey Beall'un internet sayfasında, ilgili derginin yer alıp almadığını öğrenmenizdir (Yayınevi ve dergi listesi). Bu listeyi hızlı bir şekilde taradığımda Türk akademisyenlere ait olan econjournals ve ozean publication'ın da burada yer aldığını üzülerək gördüm. Söz konusu dergilerin sahiplerinin burada yer alan kriterleri dikkate alarak isimlerini bu siteden kaldırabilmelerini dilerim.

Diğer bir tavsiyem ise; Tübitak veya ÜAK'ın dergi listesi yayınlamaları. Artık dergi basma ayrı bir ticaret kolu haline geldi ve her bu yolla her sene Türk akademisyenlere ait binlerce dolar buhar olup uçmakta ve çoğu akademik makale akademik olmayan dergilerde yayınlanmaktadır. İsmi andığım kurumların her sene güncellenen (SSCI/SCI hariç dergilerin de yer aldığı) bir liste yayınlayarak burada yer alan dergilerde yayınlanan makalelerin akademik niteliğinin olmadığını belirtmeleri gerekmekte.

Bu sayede bu açıdan bir bilinçlenme yaşanabileceği kanısındayım.

Not: Bu yazıda yer alan bilgilerin tümü Jeffrey Beall'ın websitesinden alınmıştır. Sadece sitede yer alan bilgilerin bir kısmını özetleyip, Türkçe'ye çevirdim, elbette yazım yanlışlarım / hatalarım / eleştirileriniz olabilir, rast geldikçe düzelteceğim.

Editorial Board

Managing Editor

Ali Ozel, *Dumlupinar University, Turkey*

The journal is under construction..

YAPTIKLARI İŞİN ETİK VE MEŞRU OLDUĞU İDDİASINDALAR

“Beall Listesi” olarak bilinen listedeki dergiler ücretleri web sitelerinde genellikle ilan etmiyorlar ve çalışma dergiye gönderilene kadar yazarlara bilgi de vermiyorlar.

Akademisyenleri makale göndermeye ve editöryal kurullarda olmaları için e-postalarla davet ediyorlar. Ancak bu yayımcılar, yayımladıkları çalışmaların danışman incelemesinden geçtiğini ve yaptıkları işin meşru ve etik olduğunu iddia ediyorlar.

Dear, Editor,

I am a teacher in a Chinese university. I have read many excellent articles being published on your journal for a long time. Now my colleagues and I have many good article, so we really want these articles to be published in your journal. We have confidence to say that the quality and content of our articles all conform to your journal's requirements. For the publication fees, we can pay high for each article if our articles are allowed to be published. The article attached is written by one of my colleagues. I hope you can read it in your spare time. Maybe the article I sent you is out of your journal's scope, please regard it just as a sampling article and also you can send your requirements to me. Hence, we can improve our articles. We think both of us will benefit from this cooperation for it is a win-win cooperation. So I hope you can consider such thing. Waiting for you early reply. Thank you.

With kind regards,

Dear Professor Meng:

Many thanks for your submitted paper to the Colombian Journal of Statistics (and other several journals in the address box. I am afraid the paper is not suitable for publication in our Journal as it is a more appropriate paper for a specialized Computer Science journal. There is not a real contribution in Statistics.

I also want to call your attention that is not a good practice to submit a paper simultaneously to several journals and for this reason we have to REJECT your paper.

Many thanks for your interest in the Colombian Journal of Statistics.
Best regards,

Leonardo Trujillo.

Dear Dr Dr.Nezih Oktar,
Greetings and best wishes!

I would sincerely request you to process the publication fee of 1819\$ at the earliest possible. May I know you how soon could you process the publication fee?

Please send us the dully filled invoice with the required information to FAX No: +1-650-618-1414 or to the same mail.

Or You can also process the publication fee with the help of following link,
<http://www.omicsonline.org/online-payment/>

Have a nice day Doctor.

Let me know your response as soon as possible.

If you need more information, please do not hesitate to contact us.

On behalf of Journal of Bioanalysis & Biomedicine,
With best regards for your ongoing research.

Joseph G Marreddy

Açık erişimde olumsuzluklar

- Yazardan para talep eden dergilerin bir kısmı bu işlevlerini ana sayfalarında belirtmiyorlar, gizliyorlar.
- Birçok dergisi olan yayınevleri yazarlardan yıllık ya da toptan ve daha yüksek bir para talebinde bulunuyorlar.
- Para talep eden dergilerin bir kısmında miktar oynaklık gösterebiliyor (pazarlık! ne kadar kopartabilirim?)
- Yayın alabilmek için ilgili, ilgisiz yazarlara otomatik sistemlerle defalarca e-posta gönderilerek rahatsız ediliyor.

Hakemlerle ilgili

- Bazı saygın hakemler haberi olmadan kullanılabiliyor.
- Bazı hakemler bilinçli olarak yayın işlevinde aktif rol alıyorlar.
- Bazı bilim insanları yetersiz oldukları halde akademik kaygılarla başvurdukları ya da davet edildikleri “Beall” listesindeki dergilerde hakemlik yapabiliyorlar.

Who's Afraid of Peer Review?

A spoof paper concocted by *Science* reveals little or no scrutiny at many open-access journals

On 4 July, good news arrived in the inbox of Ocorrafoo Cobange, a biologist at the Wassee Institute of Medicine in Asmara. It was the official letter of acceptance for a paper he had submitted 2 months earlier to the *Journal of Natural Pharmaceuticals*, describing the anticancer properties of a chemical that Cobange had extracted from a lichen.

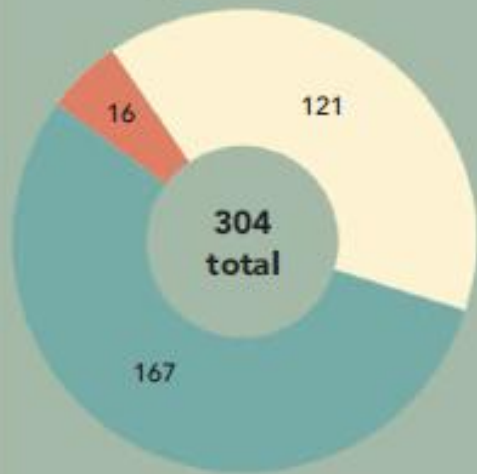

In fact, it should have been promptly rejected. Any reviewer with more than a high-school knowledge of chemistry and the ability to understand a basic data plot should have spotted the paper's shortcomings

immediately. Its experiments are so hopelessly flawed that the results are meaningless.

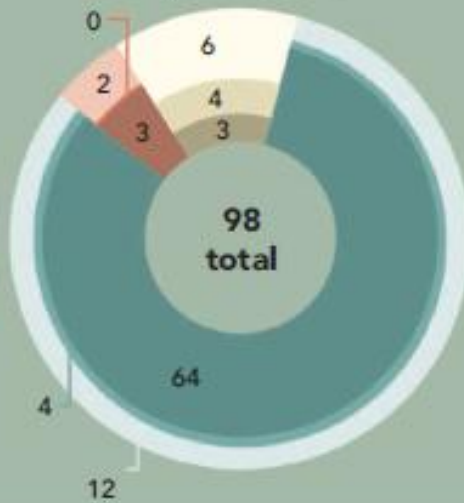

I know because I wrote the paper. Ocorrafoo Cobange does not exist, nor does the Wassee Institute of Medicine. Over the past 10 months, I have submitted 304 versions of the wonder drug paper to open-access journals. More than half of the journals accepted the paper, failing to notice its fatal flaws. Beyond that headline result, the data from this sting operation reveal the contours of an emerging Wild West in academic publishing.

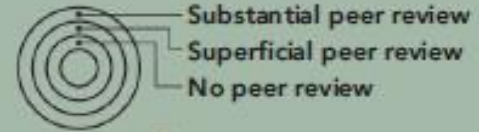

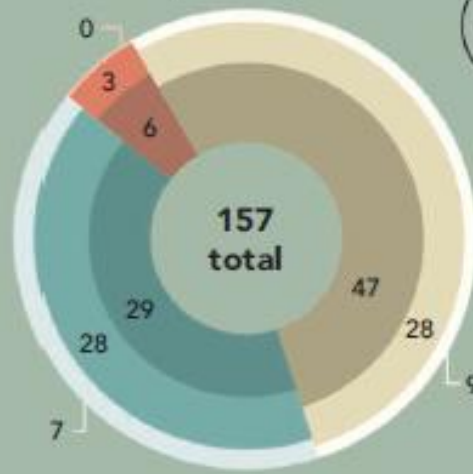

Papers submitted

Papers rejected

Papers accepted

- Beall's list
- DOAJ
- Beall/DOAJ overlap

Peer review reviewed.
 Few journals did substantial review that identified the paper's flaws.

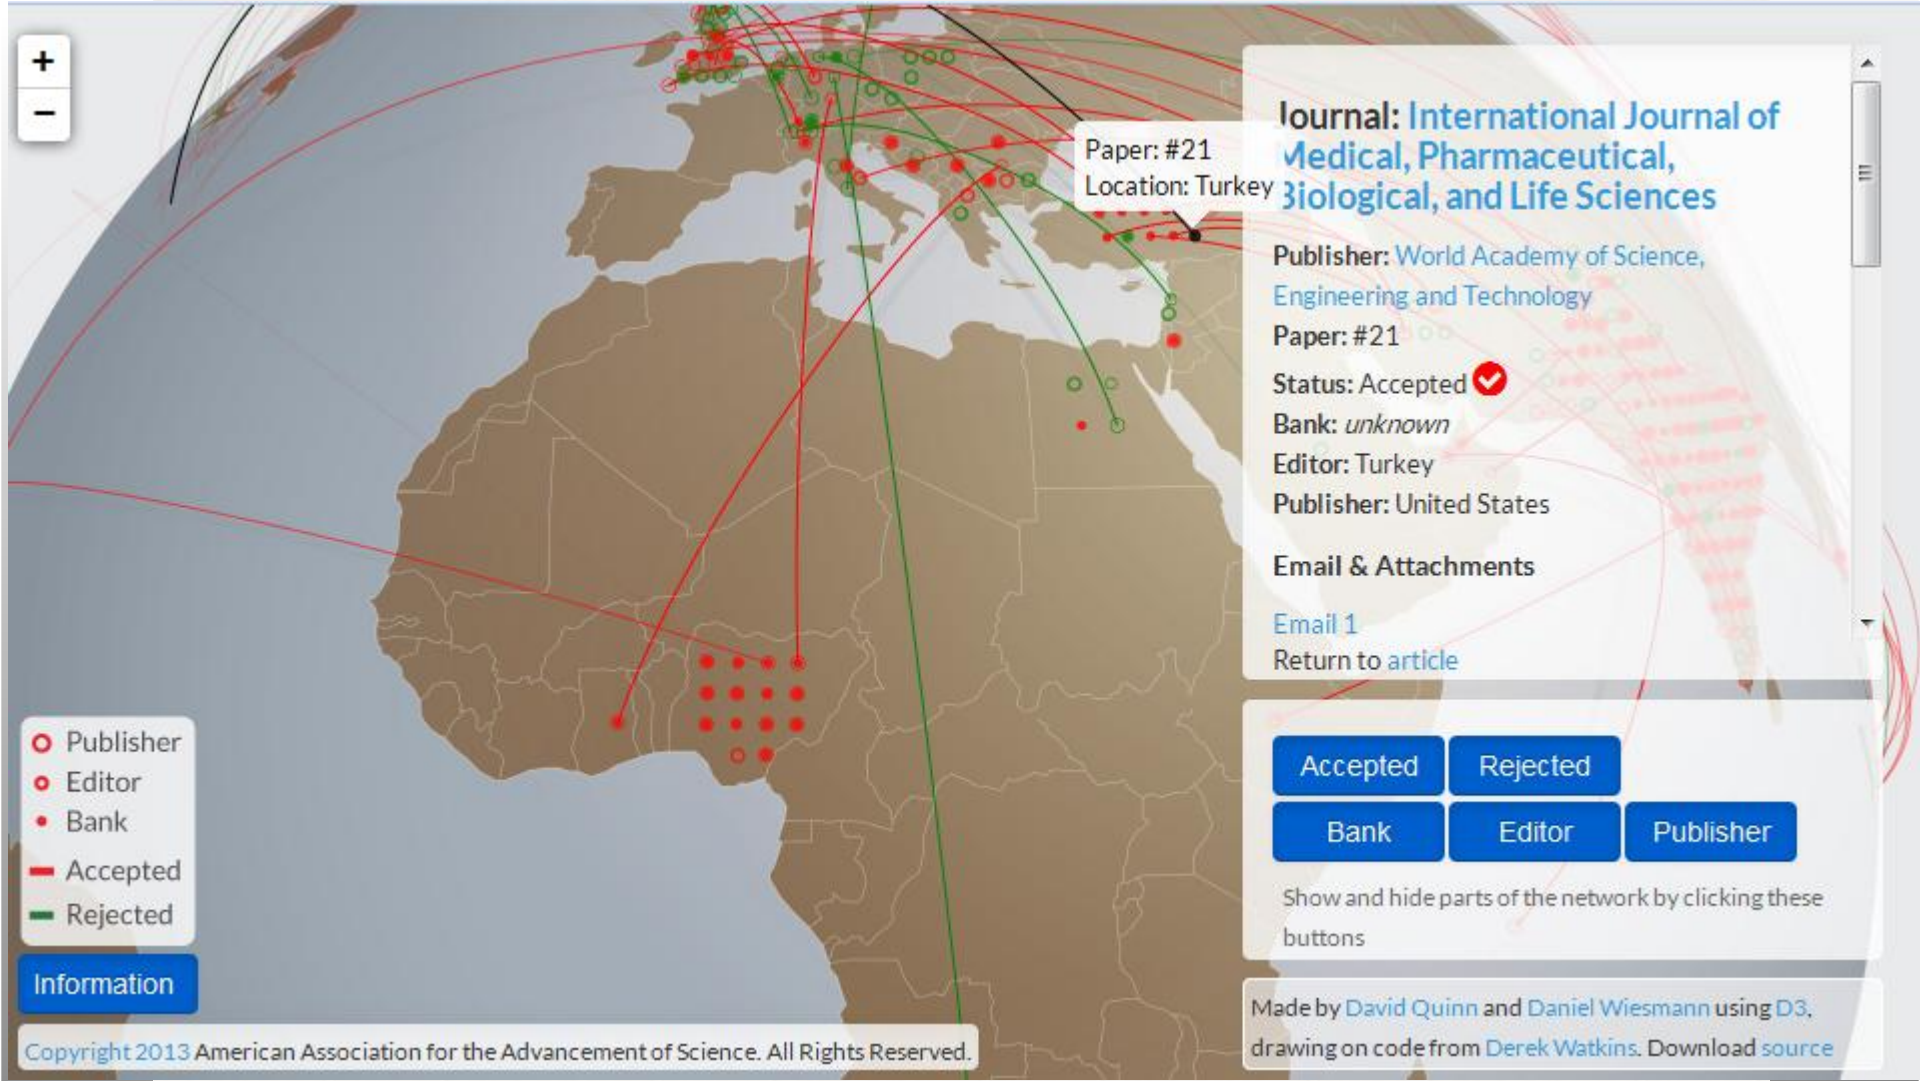

Who's Afraid of Peer Review?

John Bohannon

Science 4 October 2013

A striking picture emerges from the global distribution of open-access publishers, editors, and bank accounts. Most of the publishing operations cloak their true geographic location. They create journals with names like the American Journal of Medical and Dental Sciences or the European Journal of Chemistry to imitate—and in some cases, literally clone—those of Western academic publishers. But the locations revealed by IP addresses and bank invoices are continents away: Those two journals are published from Pakistan and Turkey, respectively, and both accepted the paper. The editor-in-chief of the European Journal of Chemistry, Hakan Arslan, a professor of chemistry at Mersin University in Turkey, does not see this as a failure of peer review but rather a breakdown in trust. When a paper is submitted, he writes in an e-mail, "We believe that your article is original and [all of] your supplied information is correct." The American Journal of Medical and Dental Sciences did not respond to e-mails.

Yargılar

- ❖ «Beall» örneğinde olduğu gibi kara listedeki dergilere yaptırım uygulanmalı.
- ❖ Açık erişim dergiciliğine olumsuz etki yapacak bilinçsiz katkılardan kaçınılmalı, hakemler uyarılmalı.
- ❖ Yayınevleri ile Açık Erişimciler arasında kıyasıya bir rekabet olduğu unutulmamalı.

Teşekkür

- o ULAKBİM
- o Doç.Dr.Orhan Yılmaz
- o Sağlıkta Süreli Yayıncılık
- o #LC Webinar
- o «Beall» listesi
- o Salondaki tüm dinleyicilere...
